Home Stadium: Live Multi-Angle Video

Have Major League quality multi-angle HD video for ALL of your games! Wired like the pros or portable and cost-effective, either option will allow you to merge your data with video for analysis.

Option 1:

Wire your stadium to capture up to 4 live angles just like Major and Minor League Parks!
☐ Video is available for viewing live or instantly after the game!

Option 2:

**Capture up to 4 angles with portable, low-cost HD cameras in three simple steps:**

☐ Chart the game behind home plate using a tablet computer

☐ Cameras record the game to SD cards

☐ Merge data and video after the game

Either option gives you excellent quality video that allows your players and coaches to utilize all the video tools that BATS for Softball has to offer.

Video Travel System

Log Games Anywhere! Even Capture HD Video of Road Games With High-Quality Portable Cameras

AT HOME: Record game data/video live using stadium camera feeds or post-game using video cards. Connect other laptops as viewing stations for players to watch at-bats or pitching motions!

Copy to your main network computer and/or server

Instantly view every pitch of every game on any computer in your offices

ON THE ROAD: Enter game data from live feed or files and view from travel laptops

Create travel laptops with data and video for road trips

Video Tools

Easily watch video of any player during any game, and create highlight drives for your entire team just like the Major League teams do! PLUS...

EZ VIDEO STAND-ALONE CAPTURE

Easily capture, play and save video for up to four angles on a portable, independent computer

Record and save clips of any session!

Set up a computer with a camera at your batting cages

Replay stored clips on the capture computer, independent of the BATS program

Compare Clips Side-by-Side

Draw On Screen

View Multi-Angle
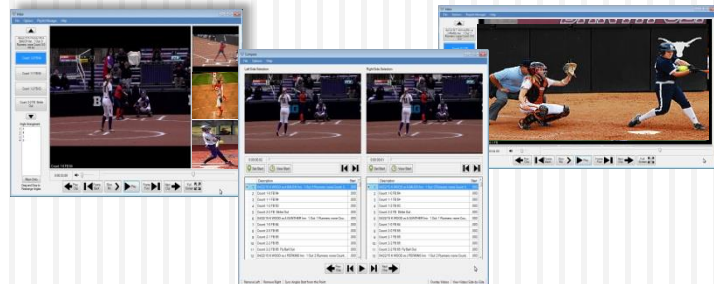

Overlay Pitching Motions

Frame-by-Frame Print-Outs

Export Video to Other Systems

Softball Tools:
BATS Scouting Reports

BATS Analysis allows you to view video, evaluate player performance, examine opponents' tactics and much more!

Game Summary:

-View all the at-bats from any game in any season! Click on an individual at-bat to view its video or watch the entire game

-"Show Innings" displays an inning-by-inning summary for the entire game

Batter/Pitcher Breakdown:

-Analyze specific batter/pitcher match-ups! You can use one batter vs. one pitcher, or one batter vs. all right-handed pitchers, etc.

-Information on pitches thrown, pitch locations and at-bat results can be seen in a variety of situations

Swing Zones:

-This report shows a pitcher's-eye-view of batter's swing patterns through the strike zone

-Match up any pitcher with any batter individually or with all-right or all-left, etc.

-Zones include high, low, medium and chase areas

-Sort by pitch type, count, and more!

Special Batter Stats:

-Measures each player's true value as a hitter

-An extremely valuable way to view the batters for one team, or for the entire league

-Sort by RBI%, KO%, Soft Contact%, Hard Contact% and more

Pitch-By-Pitch Analysis Helps Your Team WIN!

Get the winning edge with BATS, the most comprehensive softball scouting and analysis software in the world. BATS combines instant video viewing with top-quality data analysis on a network-based system that can be accessed by everyone in your organization. You will have a powerful, visual tool designed to improve how your team plays the game.

Give your players the edge in batting, pitching and fielding!

Video Benefits

With **fully incorporated pitch video and data**, your organization can keep video of hundreds of games – forever!

- Capture games live for instant viewing by coaches and players
- Log games from anywhere!
- Capture up to 4 HD angles for home games without additional wiring in your stadium - use hand-held cameras!
- Create data/video drives for coaches and players

Powerful Analysis Tools

Evaluate your own players' and opponents' strengths and weaknesses with both data and video

- Prepare scouting reports for your games
- In-depth analysis reports for individual players using everything from hitting zones to pitch velocity
- Attach special video to individual players to analyze pick-off moves, running starts, etc.

Optional Enhanced Data Module
## Import 3rd party radar data with a single click

Import / Merge
- Add radar data to your charted games OR use the 3rd-party data
- Select which data points to sync

Analyze
- Enhanced Pitching and Batting Stat reports allow sorting by radar measurements

View
- Enhanced data is viewable alongside the main video window for each pitch
